

Cabaré Cazuza: Artists Addressing HIV & Stigma, an artist-led extravaganza in the historic center of Rio de Janeiro is a parallel event to AIDS 2026. Cazuza continued performing and living publicly after the signs of AIDS took hold of his body. Accounts of the musical legend say he was experimental, maconheiro, glamorous, funny, intelligent, seductive, bonito, gostoso, poet, photographer and a good drawer as a kid. 'To make people uncomfortable is the work of Cazuza...He put people together that you would not expect to find together.' Cazuza read Clarice Lispector's *Água Viva* 111 times. 'Eu estou cafona mesmo', he said.

Cabaré Cazuza is an homage-art & politics-on the occasion of AIDS 2026, which is at a conference center far away from the historic center of Rio. Welcome to Brazil. Tuesday, July 28th.
